WISHES TO BUY LIVING NEGROES EYES.

You would consider a man wanting to buy eyes crazy. Well, when you try to save a little money by patronizing eye-glass peddlers and cut rate spectacle shops, you are selling your precious eyesight to bunglers.

Your optometrist should be in a well equipped office, training scholarship and experience should be easily seen.

You Ought to be Particular About Your Eyes.

A cheap peddler or shop-keeper might save you a little money and in his ignorance lose your eyesight. Remember Texas is one of the few states that has no laws against "spec peddling." You can go out "fittin' glasses." But don't do it, send your friends to a proven expert, educated and equipped to the minute like—
